eClinicalWorks

Switch to eCW OPRA for Diabetologists

eClinicalWorks® (eCW) OPRA — **Outpatient Records Application** — is an intelligent, cloud-based EMR platform that helps diabetologists manage consultations, patient records, follow-ups, investigations, and chronic care workflows for better outcomes through Value-Based Care. With simplified documentation and anytime, anywhere access to patient data, it speeds diabetologists' ability to make quick treatment decisions.

Streamline Documentation

1. Simplify the clinical documentation process
2. Use smart trend analysis for clinical note taking
3. Enhance practice management tools
4. Streamline workflows

Why Diabetologists Choose OPRA	Key Benefits
Comprehensive diabetes EMR	Save consultation time
Faster consultations	Improve patient retention
Better patient follow-up	Maintain longitudinal patient history
ABDM compliant & digital ready	Enhance clinical efficiency
Tools that help your clinic go paperless	Reduce manual paperwork
Built for everyday diabetes care	Deliver better chronic care
